

APPLICATIONS ARE INVITED FOR

# Editor-in-Chief

for *Endocrine-Related Cancer*

*Endocrine-Related Cancer* is a high-impact factor journal of the UK's Society for Endocrinology, and an official journal of the European Society of Endocrinology. It is a global forum for basic, clinical and experimental investigations which concern endocrine-related cancer in human and animal subjects. Review articles are a key component of the journal, which also publishes original research articles of exceptional quality. The impact factor is currently 5.193.

The Society invites applications for the role of Editor-in-Chief for a five-year term starting in January 2011. Candidates should have globally recognized expertise relevant to the journal's scope, and creative ideas about how its subject coverage should be developed.

There is an honorarium, and strong administrative support from the Society for Endocrinology's Bristol office. Please send your CV and a covering letter to:

The Officers, c/o S Byford, Society for Endocrinology, 22 Apex Court, Woodlands, Bristol BS32 4JT, UK; Fax: +44 (0)1454 642201; Email: [editorial@endocrinology.org](mailto:editorial@endocrinology.org)

**The deadline is 30 September 2009.**

di Torino

## THURSDAY - SEPTEMBER 24

13:00-14:30 *Registration*

14:30-15:00 **Opening Ceremony**

Aart J. Van Der Lely, Ezio Ghigo, Lorenzo Silengo,  
Clara V. Alvarez, Justo Castaño, Riccarda Granata

### I Session

Chairs: Fiorella Altruda and Carlos Dieguez

15:00-15:45 **Anti-T cell monoclonal-based therapy of Type I Diabetes**  
Lucienne Chatenoud, France

15:45-16:15 **Non invasive in vivo imaging of  
pancreatic islet cell biology**

Per-Olof Berggren, Sweden

16:15-16:45 **Ghrelin promotes feeding through AMPK-mediated  
modulation of hypothalamic fatty acid metabolism**

Miguel Lopez, Spain

### II Session

Chairs: Emilio Hirsch and Anna Spada

17:15-17:45 **Genome landscape of ERalpha:  
implications in body weight and type II Diabetes**

Karin Dahlman-Wright, Sweden

18:00-18:45 **MicroRNAs: components of an integrated system  
controlling**

**cardiac development, physiology and disease pathogenesis**  
Gianluigi Condorelli, Italy

## FRIDAY - SEPTEMBER 25

### III Session

Chairs: Jørgen Isgaard and Giovanni Camussi

9:00-9:45 **Two of a kind: neurogenesis and  
neuronal survival**

Jose Lopez-Barneo, Spain

9:45-10:15 **Asymmetric cell division**

Philip H. Jones, United Kingdom

10:15-10:45 **Epigenetics and Imprinted Genes in Development**

Gavin Kelsey, United Kingdom

### IV Session

Chairs: Guido Forni and Amalia Bosia

11:15-11:45 **The zinc-finger factor Insm1  
functions in development of endocrine and  
neuronal cells types**

Carmen Birchmeier, Germany

11:45-12:30 **The stem commitment to precursors**

Federico Bussolino, Italy

12:30-14:45 **Poster Presentations**

### V Session

Chairs: Justo Castaño and Riccarda Granata

14:45-15:30 **Studying metastasis in vivo**

Peter Friedl, The Netherlands

15:30-16:00 **Cancer stem cells and their niche**

Joerg Huelsken, Switzerland

16:00-16:30 **Phosphoinositide 3-Kinase p110 $\beta$  activity in  
metabolism and cancer**

Emilio Hirsch, Italy

### VI Session

Chairs: Federico Bussolino and Barbara Jarzab

17:00-17:30 **Using the Immune System signaling to fight cancer**

Guido Forni, Italy

17:30-18:15 **Endocytic trafficking of Rac is**

**required for the spatial restriction of signaling in cell migration**  
Giorgio Scita, Italy

18:30-19:00 **Talk with Editors: why my paper is rejected?**

Anna Spada, Italy

## SATURDAY - SEPTEMBER 26

### VII Session

Chairs: Clara V. Alvarez and Mauro Papotti

8:30-9:15 **Anaplastic lymphoma kinase in the pathogenesis of  
cancer**

Giorgio Inghirami, Italy

9:15-9:45 **Molecular profile of human**

**thyroid cancer**

Barbara Jarzab, Poland

9:45-10:15 **Conditional KO mouse models: new tools to  
investigate adult-onset changes in metabolism (dys)regulation**

Raul M. Luque, Spain

### VIII Session

Chairs: Aart J. Van Der Lely and Lorenzo Silengo

10:45-11:15 **Congenital hypothyroid mutations: the patients  
teach the physiology**

Laura Fugazzola Italy

11:15-12:00 **Do we need thyroid hormone transporters?**

**How many and why?**

Theo Visser, Netherlands

12:00-12:30 **Closing Ceremony**

Clara V. Alvarez, Justo Castaño, Riccarda Granata
